

Ranking the schools

In this table, schools are ranked (on the left hand side of the page) in descending order (from 1 to 717) according to their academic performance as measured by the *Overall rating out of 10* (shown on the right side of the table) for the school year 2006/2007. Each school's five-year average ranking and *Overall rating out of 10* are also listed. The higher the overall rating (out of 10), the higher the rank awarded to the school. Where schools tied in the overall rating, they were awarded the same rank. Where fewer than five years of data were available, "n/a" appears in the table.

Not all the province's secondary schools are included in the tables or the ranking. In order to be included, schools must have had, in the school year 2006/2007, at least 15 students who wrote either of the two versions of the grade-9 EQAO math test and at least 15 first-time-eligible or previously eligible writers of the Ontario Secondary School

Literacy Test. Private schools, including federally funded schools operated by the First Nations, are not required to administer the grade-9 EQAO tests. Since the results of these tests are a necessary component of this *Report Card*, only those private schools that both administered the EQAO tests and allowed the publication of their results could be included.

The exclusion of a school from the *Report Card* should not be considered a judgement of the school's effectiveness.

IMPORTANT: In order to get the most from the *Report Card*, readers should consult the complete table of results for each school of interest. By considering several years of results—rather than just a school's rank in the most recent year—readers can get a better idea of how the school is likely to perform in the future.

Rank	2006/ Last 5		School name	City	Overall rating
